PRICES

The jewellery of Dada's Diamonds is manufactured in 925 sterling silver if nothing else is specified. The jewellery can also be ordered in 18 carat gold; please request a separate price list.

All prices apply until further notice and include 25% VAT.

We do not take responsibility for eventual printing errors on the list.

Please observe that the dimensions on the price list are approximate, and that there can be slight differences between the jewellery and the drawings.

PAYMENT/DELIVERY

We can send your jewellery cash on delivery within Sweden.

Post expenses and fees will be added. Please contact Dada's Diamonds for further information about deliveries outside Sweden.

At the moment we have between one and four week's delivery time for the jewellery in silver and six weeks for jewellery in gold.

CONDITIONS OF PURCHASE

We do not offer open purchases, but we accept jewellery changes within 7 days with the condition that they have not been used.

Eventual post expenses and fees will be added when returning the jewellery.

We repair and return without extra costs the jewellery that break within the first three months following a judgement of the damage that has arisen.

Dada's Diamonds charge for reparations in the cases that we consider that the damages have been caused by the client.

The costs of the reparations depend on the extent of the damages.

Eventual post expenses and fees will be added when returning the jewellery.

JEWELLERY CARE

Please note that jewellery with chains can be sensitive towards powerful jolts.

Treated surfaces such as oxidized or gold-plated wear after some time of use.

Dada's Diamonds can renew those surfaces for the cost of 100 SEK, exclusive of post expenses and fees. Take care of your jewellery

by keeping it separated from each other and in the dark when not in use.

Clean them with a soft toothbrush and soap water.

If the dirt is difficult to reach: leave the task to a specialist.

*Finally, Dada's Diamonds wishes that you get joy and
pleasure from your jewellery!*
